THE NEW WAY TO DO UNI

## VU'S 10/10 SERIES

Dear Career Practitioner,

Welcome to week nine of Victoria University's 10/10 Series. This week Dr Rudi van Staden, Architectural and Civil Engineering Course Chair, shares with us what impact COVID-19 has had on the engineering industry and his predictions for the future.

Watch the video below to learn more.

## VU'S 10/10 SERIES

## INDUSTRY IN FO ENGINEERING

Employers rate VU graduates in the top 10 of more than 40 universities in Australia for work-readiness (Quality Indicators for Learning and Teaching's 2018 Employer Satisfaction Survey). Emma Hendry, CEO of Hendry Group tells us [what makes a stand-out built environment grad](#) and graduate Annelise Carter explains how a [supportive learning environment and practical focus](#) gave her a head-start in the fast-paced construction industry.

While official data on the early impact of COVID-19 on apprenticeship numbers won't be available for another six months, the Mitchell Institute analysed previous years' data and other research to [make recommendations to the Australian Government on ways keep apprentices enrolled and connected to workplaces](#). Do you have students interested in Engineering and Built Environment? Our recent future student information evening covered all the trends, benefits and opportunities on offer at VU and beyond, [you can watch the recording online now](#).

Has this info been helpful? Give us your feedback [here](#).
