# ACKNOWLEDGEMENT OF COUNTRY

Victoria University (VU) acknowledges the Elders, families and forebearers of the Boonwurrung, Woiwurrung (Wurundjeri) and Wathaurung (Wadawurrung) who are the custodians of University land and have been for many centuries.

We acknowledge that the land on which we stand is the place of age-old ceremonies of celebration, initiation and renewal, and that the Kulin people's living culture had, and has, a unique role in the life of this region. VU supports the aim of Reconciliation Australia to build better relationships between the wider Australian community and Aboriginal and Torres Strait Islander peoples for the benefit of all Australians.

# MOONDANI BALLUK ACADEMIC UNIT

Moondani Balluk means 'embrace people' in the Woiwurrung language of the Wurundjeri people.

Our vision for the Moondani Balluk Academic Unit is to create and foster:

- ◆ A culturally sensitive environment that welcomes, nurtures and recreates community based on relationship to land, culture, law and elders
- ◆ Sharing of Aboriginal knowledge and to integrate Aboriginal practices into its curricula, research and work
- ◆ Respect for all people through mutually engaged relationships
- ◆ A commitment to pursuing political and social justice, equity, and access to education for Aboriginal and Torres Strait Islander people
- ◆ Accountability to Aboriginal cultural values, protocols and norms.

Moondani Balluk assists all students with:

- ◆ ABSTUDY applications and other financial assistance
- ◆ Course and enrolment advice
- ◆ Academic support through tutoring and mentoring, and use of computer and photocopying facilities
- ◆ Access to the Aboriginal and Torres Strait Islander Resource Library
- ◆ Social support through our campus locations, cultural awareness activities, community organisations and events
- ◆ Referral to counselling
- ◆ Referrals and support in housing and finance matters
- ◆ Career and employment advice through cadetships, work experience and job listings.

All Moondani Balluk staff maintain close links and relationships with the Koori community, working closely with the Office of Aboriginal Affairs Victoria, Local Aboriginal Network, the Department of Justice Western Metropolitan Regional Aboriginal Justice Advisory Committee, the Department of Human Services Indigenous Family Violence Regional Action Group, local members of the Koori community in the western suburbs of Melbourne and Aboriginal statewide organisations.

# A MESSAGE FROM THE CHANCELLOR

**As Chancellor of Victoria University, I take enormous pride in the achievements of our graduates. It is a pride that is shared by your family and friends, and by all VU staff and Council members.**

Your success in completing your course of study is our greatest reward. Your graduation day is a significant milestone. It is important to me and the entire university community that each ceremony highlights the rich diversity of our institution and honours the celebratory nature of the occasion.

During your time with us, we have equipped you with the knowledge and skills you need to thrive in the modern world. You have shown an ability to set goals and achieve them. You have the tools to learn, to adapt, to be flexible, to be resilient and to succeed.

Throughout your study we have strived to give you an education which includes an understanding of the workforce and an appreciation of the world in which we live. We are now sending you out into the world to make a difference.

As a university we seek not only to provide you with a first class education but it is important to us that we strengthen the communities from which you come, and in many cases, to which you will return. Through you, and through the impact of our research on real world issues, we are improving our community, both locally, nationally and globally.

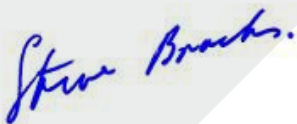

To each of our graduates – enjoy your well-deserved graduation day. I encourage you to reflect on all that you have accomplished so far and on the many experiences that are still to come.

You will always remain a member of the VU family. Please stay connected through our extensive alumni network and keep us updated on the achievements you are making in the world.

I hope that VU means as much to you as it does to me.

Congratulations and my very best wishes for an exciting and successful future.

Regards,  
Steve

# A MESSAGE FROM THE VICE-CHANCELLOR AND PRESIDENT

**Welcome - and my heartfelt congratulations to all graduands at this important ceremony. I am delighted to be able to celebrate your achievements alongside you in 2021.**

In the short time I have had the privilege of being Vice-Chancellor of this wonderful institution, it has become clear that our students are diverse, resilient, resourceful and passionate about achieving their goals. This has never been more evident than in the last year, when your studies were disrupted by COVID-19. Your achievement here today is remarkable, and I hope you are as proud of yourselves as I am.

In graduating from VU you become alumni of a university which is among the world's best. This enhances the value of the qualification you have worked so hard to earn. It will assist you as you forge ahead with your career both near and far.

I can think of no other Australian university that has more potential than VU to influence and contribute to its communities.

This is where you come in: your award is an opportunity for you to make a real contribution to the workforce and society, whether it is around the corner or around the world.

I join the Chancellor in encouraging you to remain connected to the university as part of our evergrowing alumni community. I look forward to hearing more from you as you join them as valued ambassadors of VU.

Congratulations on reaching this exciting milestone. Our thoughts are with you on his special day.

Sincerely, Adam

**Professor Adam Shoemaker**

# 100 YEARS OF OPPORTUNITY AND SUCCESS

Congratulations! You have achieved an important milestone.

You have succeeded in your tertiary studies and we are delighted to send you into the world – or welcome you back for further study. You are now part of the VU family.

Today's Victoria University is a direct descendant of Footscray Technical School, which first opened its doors to students in February 1916. The school, with the support of the local community, took up the challenge to offer educational opportunities to the diverse population of Melbourne's West. We remain committed to that goal and we are now one of the longest-standing providers of education in Victoria.

The School adopted the image of the Door of Opportunity as a means of expressing to the entire community the school's purpose and reason for existence. Victoria University remains committed to that spirit and tradition as we embark on our next 100 years.

As the University of Opportunity and Success, we play a role in helping students from diverse backgrounds find success, and in the process we strive to be a distinctive University of the 21st century.

For a quarter of a century we have also been providing exceptional educational opportunities for international students. In Melbourne, nearly 20% of our total student population are international students from over 80 countries. Offshore, through high-quality partnerships, VU enrolls nearly 4,500 students per year in English, diploma, degree and master courses in China, Malaysia, Singapore, Vietnam and Sri Lanka.

VU is especially proud of our international alumni as they provide marvellous contributions to their employers, families and communities all over the world.

We have grown into one of Australia's biggest and best universities, with over 42,000 enrolled students and just under 2000 staff. Victoria University is ranked in the top 2% of universities worldwide, in the prestigious Times Higher Education World Rankings.

We have campuses in Melbourne's CBD, and spread across Melbourne's western region, and a Sydney campus that offers courses to international students.

The University encompasses:

- ◆ Seven teaching colleges
- ◆ Victoria Polytechnic, VU's vocational training provider, and
- ◆ Two research institutes in our flagship areas of Sport, Health and Active Living and Sustainable Industries and Liveable Cities.

# THE UNIVERSITY MACE — AN ESTABLISHED TRADITION

Our graduation ceremonies begin with the entrance of the University mace, signifying the authority of the Chancellor. Carried by the Mace Bearer, the mace symbolises learning, scholarship and our rich history. The mace connects us with those who have come before and those who will follow in the pursuit of learning. Made of sterling silver and 24-carat gold, the design includes the letter 'V', standing for Victoria – our University's home and namesake.

# ACADEMIC DRESS

Wearing academic dress on ceremonial occasions is a celebrated university tradition, and generally consists of a gown (also known as a robe) with a separate hood (also known as a stole), and usually a cap – doctoral candidates wear a bonnet. Throughout the Commonwealth, universities usually follow the academic dress style of Oxford or Cambridge. Our academic dress is based on the Oxford style. Traditionally, the Chancellor’s gown is faced in gold and the Vice-Chancellor’s gown is faced in silver.

The colour of the hood (stole) identifies the discipline:

<b>Ruby</b>	Arts
<b>Ultramarine</b>	Business or Business Administration
<b>Cherry</b>	Education
<b>Silver Grey</b>	Engineering
<b>Old Rose</b>	Health Science
<b>Parchment</b>	Law
<b>Pansy</b>	Music
<b>Buff</b>	Psychology
<b>Spectrum Green</b>	Science, Applied Science and Sport Science
<b>Gold</b>	Social Studies
<b>Gold</b>	Sport and Recreation
<b>Adonis Blue</b>	Doctor of Business
<b>Cherry</b>	Doctor of Education
<b>Graphite</b>	Doctor of Engineering
<b>Pearl White</b>	Doctor of Laws
<b>Ruby</b>	Doctor of Letters
<b>Sapphire</b>	Doctor of Philosophy
<b>Old Gold</b>	Doctor of Psychology
<b>Spectrum Green</b>	Doctor of Science
<b>Sky Blue</b>	Doctor of the University
<b>Tangerine</b>	TAFE Certificates

The gowns worn by graduating students help distinguish undergraduate and higher degrees:

- ◆ undergraduates and postgraduates wear a black gown – Vocational Education, Further Education and undergraduate gowns have a large slit in each sleeve
- ◆ the masters gown has a long narrow sleeve extension
- ◆ doctoral candidates wear a red gown.

**Masters** – a black gown and black cap with a black hood fully lined with the discipline colour.

**Doctors** – a black bonnet with a gold cord, a scarlet gown with a facing and a black hood fully lined with the discipline colour.

**First Nations/Indigenous Australians** – The academic dress of your award is worn together with a calf length black and patterned silk stole that has the Moondani Balluk name and a portion of the Moondani Balluk logo.

## ACADEMIC DRESS FOR PARTICULAR AWARDS IS AS FOLLOWS:

**Certificates** – a black cap and an undergraduate gown with a black stole with a facing of tangerine.

**Diplomates and Graduate Certificates** – a black cap and an undergraduate gown with a black stole with a facing in the discipline colour.

**Bachelors** – a black gown and black cap with a black hood half lined with the discipline colour. The hood for the honours degree has a white band on the edge of the hood.

The logo design is evocative of the western region of Melbourne. The black lines represent boomerangs that speak to the return of knowledge to the Aboriginal community from the University and from the Aboriginal community to the University. The eel shape represents the Traditional Owner food source while the line designs within represent Traditional Owner land, culture, law and connection as continual. The bora ring shapes in the left hand side stole panel represent Indigenous knowledge, respect and justice, and our relationships to land, culture, Elders and lore.

In official abbreviations of our awards, Victoria University is abbreviated to VicMelb.

# WELCOME TO THE ALUMNI COMMUNITY

## DOCTOR OF BUSINESS ADMINISTRATION

**Adeline BENJAMIN**

*Thesis title:* Hierarchical impact of green supply chain initiatives on sustainable performance: the Food and Beverage Processing SMEs in Australia.

*Citation:* The research investigated the impact of institutional pressures and green human resource management practices on the adoption of green supply chain initiatives for improved sustainable performance. The thesis contributes to Australian Food and Beverage processing sector in making better decisions and formulate strategies that can improve the environment, generate more profits and enhance social welfare.

*Supervisor(s):* Associate Professor Himanshu Shee, Mr Tharaka De Vass

**Ernest FIAKPA**

*Thesis title:* Measuring Employee Satisfaction Using Total Quality Management Practices: An Empirical Study of Nigerian General Hospitals

*Citation:* The study investigated the impact of Total Quality Management (TQM) practices on employee satisfaction towards improving service quality and patient satisfaction in Nigerian general hospitals. It found positive relationships between TQM practices, employee satisfaction, and service quality. The study contributes to the management literature, and has significant implications for improving service quality and stakeholders' satisfaction in the context of hospitals.

*Supervisor(s):* Dr Thu-Huong Nguyen, Professor Anona Armstrong

**Joanna KREZEL**

*Thesis title:* Towards understanding effects of social influence on student choice of university - case study of Victoria University

*Citation:* Joanna's research focused on developing a greater understanding of social factors influencing the final choice of higher education institutions. Her findings contribute to the broader body of knowledge concerned with student choice and offer practical implications for higher education marketers, informing the development of more targeted marketing and recruitment

campaigns. Joanna currently works at Victoria University teaching a range of marketing units.

*Supervisor(s):* Dr Romana Garma, Dr Olga Junek

**Paul MORAN**

*Thesis title:* Do Investor Beliefs About Asset Returns Produce Rational Financial Behaviours?

*Citation:* Investors are assumed to make rational decisions based on an understanding of the risks and expected returns of their investment choices. Paul's research investigated if this was true for non-professional investors, and if not, what factors influenced their investment choices. Using logistic regression, he found that perceived past performance, as opposed to actual past performance, was the most influential factor in determining preferred investment.

*Supervisor(s):* Professor Sardar Islam, Dr Michael Ntalianis

**Jeanette RAYMOND**

*Thesis title:* Inclusion of Social Services in Public Procurement: A Case Study of Federal Government Departments in Canada

*Citation:* Jeanette's research examined procurement policies of Canadian government departments and how they promote the achievement of social objectives, particularly for the disadvantaged and minority groups. This study will provide a framework to understand how targeted procurement practices can be used to achieve socioeconomic objectives. Jeanette is currently a sessional lecturer at Victoria University attached to the College of Business.

*Supervisor(s):* Professor Bhajan Grewal, Professor Peter Sheehan

**Abdullatef SABER**

*Thesis title:* the impact of financial literacy on household wealth in the kingdom of Saudi Arabia

*Citation:* This thesis studies the level of financial literacy and the impact of demographic factors and financial literacy on household wealth in Saudi Arabia. The study finds that demographic factors and financial literacy have a significant impact on household wealth. It also finds that financial literacy is instrumental in many aspects of Saudi people's day-to-day financial behaviour.

*Supervisor(s):* Dr Guneratne Wickremasinghe, Dr Lalith Seelanatha

**Neale WARDLEY**

*Thesis title:* The Greenhouse Gas Emissions Trading Journey: Finding the Balance between Acceptance, Effectiveness and Emissions Reduction

*Citation:* Emissions trading is a cost-effective way of containing global warming, but has achieved little. Using international case studies, the thesis explores why this is so. Priority in the design of many such systems has been given to acceptance rather than to reducing emissions. More attention is needed to the emissions reduction goal, and to preserving this goal as circumstances change.

*Supervisor(s):* Professor Peter Sheehan, Dr Abdullahi Ahmed

## DOCTOR OF EDUCATION

**Paul BARBER**

*Thesis title:* An exploration of relationship develop through Outdoor Education

*Citation:* This qualitative study presented a detailed analysis of the perspectives of teachers and outdoor education experts regarding curriculum design and student outcomes as key factors in school based outdoor education programs. The findings highlighted variability in the definition of the domain and the context of school based implementation. Results reinforced opinions of the importance of outdoor education experiences to the social and emotional development of students. The findings strongly support the on-going use of these programs in secondary school education.

*Supervisor(s):* Professor Anthony Watt, Dr Cathryn Carpenter

**Loretta KONJARSKI**

*Thesis title:* Perspectives on Physical Education student engagement in an experientially based Inclusion and Diversity Physical Activity unit

*Citation:* Examining the development of attitudes, skills and knowledge demonstrated by physical education students in an undergraduate inclusion and diversity unit was the main aim of this research. A phenomenological approach incorporating both quantitative and qualitative data was adopted. The three phases of research considered the pre- and post-unit perspectives of students completing an experiential program that involved working with young people with a disability.

Significant positive outcomes reflective of improvements in their predispositions and preparedness to be more inclusive were the key findings of the study

*Supervisor(s):* Professor Anthony Watt, Dr Janet Young

**Helen SCHIELE**

*Thesis title:* How does guaranteed time and relational trust build collective efficacy in a regional faith based school?

*Citation:* This thesis adopted a pragmatist and qualitative paradigm of knowledge to investigate the role of guaranteed time and relational trust in building collective efficacy in a regional faith-based school in Victoria. The research, framed within a narrative methodology, was explored through a series of semi-structured conversations and written surveys. From analysis of data, three provocations were theorised, with implications providing a reconstructed framework of practice for school and community to work within for change and improvement.

*Supervisor(s):* Dr Peter (Neil) Hooley, Dr Claire Kelly

## DOCTOR OF PHILOSOPHY

**Olanike Akinwunmi ADEOYEKE**

*Thesis title:* Optimal Capital Structure and Corporate Governance: An Application of Differential Game Theory

*Citation:* Olanike developed differential game models to resolve conflicts of interest in financial management and specify an optimal capital structure. Her research achieved high-quality impacts, including a journal paper in a Q2 journal, other journal submissions, and conference presentations. She received a Ph.D placement with Aurecon through a competitive process to prepare for her future career.

*Supervisor(s):* Professor Sardar M N Islam, Dr PariSima Nassirnia, Dr Adeshina Israel

**Fernando AGUSTIN**

*Thesis title:* The Investigation of Tree-Retardant Ethylene Propylene Rubber Insulated Medium Voltage Cable as an Alternative Underground Cable for Victorian Power Distribution Network

*Citation:* Fernando investigated the viability of silane-cured low-Dielectric Dissipation Factor

Tree-Retardant Ethylene Propylene Rubber cable as an alternative over standard Cross-linked Polyethylene cable. The laboratory-based experimentation using thermal ageing behaviour was studied to observe time-variation of mechanical properties at break. Measurements of Partial Discharge were also conducted prior and after cable heating at service temperature. The thesis produced 2 journal presentations.

*Supervisor(s):* Professor Akhtar Kalam, Associate Professor Aladin Zayegh

#### **Dona ALAHAKOON**

*Thesis title:* Factors Influencing the Business Acquisition Decision (the Deal Value) of Listed Companies in Australia

*Citation:* This thesis examined the factors influencing business acquisition decisions of listed companies in Australia using multiple regression analysis. It has made a significant contribution to the literature on the estimation of the most possible purchase consideration and provides insights to policy makers to develop a more competitive capital market to realise Australian firms' their competitive position in the global market.

*Supervisor(s):* Dr Guneratne Wickremasinghe, Professor Terrence Hallahan

#### **Abdulaziz ALDAHOUH**

*Thesis title:* The Effect of Royal Decrees and Economic Announcements on the Saudi Stock Market: A High-Frequency Data Analysis

*Citation:* Abdulaziz uniquely examines the impact of Saudi royal decrees on the Saudi financial market performance. His thesis is the first to test the efficient market hypothesis and asset pricing in the scope of absolute monarchy government framework. The findings of this research has made a significant theoretical and empirical contribution in Finance by opening up a new area of research.

*Supervisor(s):* Dr Sidney Lung, Dr Yongqiang Li

#### **Fahad ALDUBAYAN**

*Thesis title:* The Impacts of Micro Stores on Labor Market Duality and Employability in Saudi Arabia: 1970-2020

*Citation:* During 1970-2020, Saudi Arabia had benefited from the vast oil boom but also experienced high unemployment and poor economic performance, and mitigation policies had been ineffective. The thesis focuses on the currently overlooked Saudi labour demand aspects and introduces a nested CES production function approach to investigate the causes of these issues for effective corrective policy analysis and implementation.

*Supervisor(s):* Professor Jimmy Tran, Professor Sardar M N Islam

#### **Esra'a ALHARASIS**

*Thesis title:* The Impact of Fair Value Disclosure on Audit Fees of Jordanian Listed firms

*Citation:* Esra'a is the first researcher to examine the impact of fair value disclosure (FVD) on audit pricing in Jordan. The positive impact of FVD on audit fees is confirmed, especially for the finance industry. Findings assist policymakers in regulating FVD. At the time of completing the thesis one article has been published and others submitted. Conference papers has received two awards.

*Supervisor(s):* Professor Colin Clark, Dr Maria Prokofieva

#### **Khalid ALHARBI**

*Thesis title:* The impact of the 2030 Vision and firm characteristics on corporate social responsibility disclosure in Saudi Arabia

*Citation:* This thesis theoretically and empirically examines how political, social, and economic factors and company characteristics influence corporate social responsibility disclosure (CSR) in Saudi Arabia. The thesis provides the first findings about the impact of Saudi Vision 2030 and company characteristics specific to the Saudi context on CSR. It contributes significantly to CSR practice and regulation in Islamic countries.

*Supervisor(s):* Professor Alan Farley, Dr Hong (Helen) Yang

#### **Ahmed ALMAHUZI**

*Thesis title:* Factors Impacting the Effectiveness of Internal Audit in the Saudi Arabian Public Sector

*Citation:* Ahmed examined external and internal factors that influence internal audit effectiveness in the Saudi Arabian public sector using the resource-based theory. The findings of the study provide an important scholarly investigation and contribute to internal audit function literature. The findings are also useful to other countries, especially developing nations and the Middle East, in addressing issues of internal audit ineffectiveness.

*Supervisor(s):* Professor Colin Clark, Dr Aquinas Purcell

#### **Sultan ALMAJED**

*Thesis title:* Stock Market Reaction to Company Announcements in an Emerging Stock Market: The Case of Saudi Arabia

*Citation:* Sultan carefully investigated Saudi stock return reactions to different types of company announcements. His research found that for companies in the ten major sectors of the economy in Saudi Arabia, the stock market does not exhibit a semi-strong form of market efficiency. With the expanding of Saudi Stock Exchange to international investors, his findings provide valuable insights to market participants.

*Supervisor(s):* Dr Sidney Lung, Dr Yongqiang Li

#### **Talal ALRUWAILI**

*Thesis title:* Impact of IFRS, ISA and Ownership Structure on Earnings Management: Evidence from Saudi Arabia

*Citation:* Talal examined the techniques adopted by companies in Saudi Arabia in manipulating financial reports and corrupt the quality of earnings. He has shown how the Saudi government has introduced economic reform and compelled businesses to adopt international accounting standards by compelling them to follow International Financial Reporting Standards (IFRS) and International Standards on Auditing (ISA). The thesis findings indicate that the IFRS, institutional ownership and family ownership have significant negative effects on earnings management (discretionary accruals), implying that these factors are efficient in monitoring management, reducing earnings management and improving the financial reporting quality.

*Supervisor(s):* Dr Jayce Naido, Dr Ranjith Ihalanayake

#### **Khalil Awad ALRUWAITEE**

*Thesis title:* Global Volatility Transmission and Portfolio Management: The Case of Saudi Arabia

*Citation:* Saudi Arabia's stock market has experienced substantial changes in recent years due to increasing globalisation and integration. The thesis first investigates, by means of advanced statistical modelling methodologies, how the volatility of these changes have affected the Saudi stock market. It then investigates how the empirical findings can be used as standard financial indicators by investors for practical portfolio management.

*Supervisor(s):* Professor Van Hoa (Jimmy) Tran, Dr Jo Vu

#### **Ario ARIO**

*Thesis title:* Lending methodologies, sustainability and depth of outreach of microfinance institutions in Indonesia

*Citation:* Microfinance provides small loans to poor people, and seeks financially self-sustainability. Some studies find a trade-off between these goals. Using detailed empirical analysis, this important study shows that in Indonesia the trade-off exists for loans to individuals but not for loans to groups, where the group dynamics ensure repayment. Group lending can help to reach the poor while retaining self-sustainability.

*Supervisor(s):* Professor Peter Sheehan, Dr Sidney Lung

#### **Geert BAK**

*Thesis title:* Negotiating Difference: Steiner Education as an Alternative Tradition within the Australian Education Landscape

*Citation:* Steiner education, also known internationally as Waldorf education, is currently practised in

over 60 Australian sites, after starting in 1957. This thesis by publication explores 6 Steiner schools and programs in Victoria from the 1970s to 2010, drawing on interviews with 40 key Steiner educators. It contributes to both Australian educational history and current understandings of educational alternatives.

*Supervisor(s):* Professor Marie Brennan, Associate Professor Mark Selkrig

#### **Paolo BALLA**

*Thesis title:* Disrupting Artistic Terra Nullius: The ways that First Nations women in art & community speak Blak to the colony & patriarchy

*Citation:* Paola examined how Indigenous women speak Black to the colony and patriarchy. An exhibition and exegesis centre Blak womens intellectual contributions. The work conveys trauma and beauty in the bodies of Blak women. Examiners commended the work for carving new spaces and ways of producing academic knowledge. Paola is Director of Teaching and Learning at Moondani Balluk, Victoria University.

*Supervisor(s):* Professor Christopher Sonn, Professor Sue Dodd, Professor Tracey Bunda

#### **Thi Tuyet BE**

*Thesis title:* Developing Students' Employability in Internationalised Curriculum Programs in Vietnamese Higher Education

*Citation:* This research examined the internationalization of curriculum (IOC) in four Vietnamese universities. Higher Education IOC is examined through quantitative and qualitative data addressing the students, graduates and employers' sense of significance of attaining an IOC degree. This study demonstrates the importance of the global learning community whilst deliberating on the unique cultural needs required for IOC delivery in Vietnamese universities.

*Supervisor(s):* Professor Tarquam McKenna, Professor Fiona Henderson

#### **Polly Lisa BENNETT**

*Thesis title:* Roller derby changed my life': Rethinking Marxist theory of emancipatory praxis through a case study of women's flat-track roller derby.

*Citation:* Polly's thesis culminated a five-year, ethnographic case study of the sport of women's flat-track roller derby, finding that conditions of mutual support and participant control must exist if alternative physical practices such as roller derby are truly to contribute to emancipation. The thesis makes an important contribution to theories of gender, social reproduction, alienation and social movement organisation.

*Supervisor(s):* Emeritus Professor Jamie Doughney, Dr Joanne Pyke, Ms Jeannie Rea

### Jade BITOMSKY

*Thesis title:* (Re)scripting Femininity with a Female Gaze - Female Gender Representation in Neo-noir Script, The Lonely Drive

*Citation:* This creative research project explores the representation of women in neo-noir. It explores the possibly of (re)presenting the femme fatale as active and rational, in order to subvert the male gaze and to create a space in which to consider the concept of a female gaze

*Supervisor(s):* Dr Karina Smith, Dr Jay Daniel Thompson, Associate Professor John Weldon

### Javier BOTELLA RUIZ

*Thesis title:* The effects of endurance exercise and training on mitochondrial dynamics and remodelling in human skeletal muscle

*Citation:* Javier discovered some new mechanisms by which different exercise prescriptions regulate skeletal muscle adaptations to training. His work has made significant contributions to better understanding how specific stressors may positive influence adaptations to exercise training, and his thesis was passed without corrections by two world-leading experts in the field. During his PhD Javier received funding from the Australian Physiological Society and won the prestigious young investigator award of the European Congress of Sport Science.

*Supervisor(s):* Professor David Bishop, Dr Michael Lazarou

### Victoria BRACKLEY

*Thesis title:* Exploring the Transfer from Drills to Skills in Elite Freestyle Swimming

*Citation:* Victoria examined elite swimming training approaches to understand their effectiveness. This involved interviewing 20 of Australia's most experienced swim coaches and then completing extensive biomechanical analyses of commonly prescribed swimming drills relative to competitive swim performances. The findings indicated that swimming coaches tend to over-prescribe skill drills that don't transfer to competitive swim performance. As Victoria's project was co-funded by Swimming Australia, she was able to share her findings directly with key stakeholders and positively impact swim coach education and practice.

*Supervisor(s):* Professor Damian Farrow, Associate Professor Kevin Ball, Dr Elaine Tor, and Dr Sian Barris

### Jozefien BROERSE

*Thesis title:* Re-imagining space: Placemaking through physical activity in super-diverse neighbourhoods

*Citation:* Jora has investigated placemaking practices through physical activity in the context of the City of Maribyrnong's cultural diversity. The project employed

an ethnographic approach to advance theoretical and practical understandings of placemaking in cultural communities. Jora has continued her journey at Victoria University as a Research Fellow in Health Policy at the Mitchell Institute for Education and Health Policy.

*Supervisor(s):* Professor Ramon Spaaij, Associate Professor Prof Brent McDonald

### Adam BROMAGE

*Thesis title:* Reconceptualising the Nature of Executive Functioning - Introducing the Hierarchical Demand Model (HDM)

*Citation:* Adam developed, applied and tested a novel classification system with the aim to ameliorate longstanding challenges reported within psychological theory surrounding the cognitive skill of Executive Functioning. His unique offering unites contemporary nonscientific evidence with traditional cognitive assessment practice to produce a hierarchical system of measurement that provides improved conceptualisation of human behaviour across a continuum of various environmental demands.

*Supervisor(s):* Associate Professor Michelle Ball, Dr Emra Suleyman

### Peter BROWNE

*Thesis title:* The application of machine learning to enhance performance analysis in Australian Rules football

*Citation:* Peter's research applies machine learning to help analyse complex data collected on players and teams during professional Australian football matches and training. It helps provide greater context for coaches when evaluating players as well as provide enhanced prescription of interventions designed to improve player skill.

*Supervisor(s):* Professor Sam Robertson, Dr Alice Sweeting, Dr Stuart Morgan

### Dean CAMPJ

*Thesis title:* Unravelling the mechanisms of chemotherapy-induced cachexia and the potential of mitoprotective therapeutic strategies

*Citation:* Cachexia is an often fatal body wasting syndrome associated with cancer, as well as other diseases, that involves skeletal muscle. Dr Campelj's thesis examined the role that anti-cancer chemotherapy treatment plays in muscle cachexia and investigated mitochondria-targeted therapeutics as interventions against it. His data highlights exciting molecular mechanisms that could be targeted in the clinic. Dr Campelj published five chapters of his thesis during his candidature and presented his work in Rome, Italy.

*Supervisor(s):* Dr Emma Rybalka, Professor Alan Hayes

### Olivia CANT

*Thesis title:* Exploring the effects of ball speed and spin in grand slam tennis match-play

*Citation:* The research utilised modern technology to investigate the effects of ball speed and spin on aspects of on-court hitting performance. The research has provided coaches and players with a method to better understand the influence of spin in match situations and in turn improve player performance. Olivia has presented her work at a range of international conferences and published in high quality journals. Olivia is now embedded at Tennis Australia as a VU Postdoctoral Research Fellow.

*Supervisor(s):* Professor Damian Farrow, Dr Machar Reid, Dr Stephanie Kovalchik

### Shekha CHENTHARA

*Thesis title:* Privacy preservation of electronic health records using blockchain technology: healthchain

*Citation:* Shekha has done her research in developing a new framework using blockchain technology to protect healthcare data that ensures patient privacy and security in a distributed environment. The research is highly significant as it provides a practical solution to mitigate the cyber attacks towards healthcare sector. She has published and presented her work in top journals and international conferences. Also, Shekha is working as a sessional in Victoria University.

*Supervisor(s):* Professor Hua Wang, Dr Khandakar Ahmed

### David CORBETT

*Thesis title:* Temporal analysis of physical and skilled output in professional Australian Rules football

*Citation:* David's thesis developed new methodologies for the analysis of physical and skilled performance data obtained from Australian Rules football, when considered as a time series. A range of practical applications arise from the thesis, including improved evaluation of player performance as well as enhanced specificity of training and practice prescription.

*Supervisor(s):* Professor Sam Robertson, Dr Alice Sweeting

### Tabitha CREE

*Thesis title:* Investigating the Role of FKBP25 in Cell Proliferation and Differentiation

*Citation:* Tabitha examined the role of FKBP25 protein in models of differentiation and proliferation in breast cancer and muscle developmental models identifying that FKBP25 is negatively associated with cell proliferation and cellular plasticity, the first observation of this kind. Tabitha's findings indicate that altering FKBP25 levels in cancer and muscle could lead to improved treatments in cancer spread and muscle disease.

*Supervisor(s):* Professor John Price, Dr Craig Goodman

### Graeme DALE

*Thesis title:* Stepping out of the Shadows': an examination of female larrikins in Melbourne and the influence of popular culture on their behaviour (1878-1888); an exegesis and Documentary Theatre play, 'Flash Donahs'.

*Citation:* The 'Larrikin' is an iconic figure in the history of Australia and the City of Melbourne. Graeme Dale has created an historically-based work of Documentary Theatre (based on events from 1878 - 1888), as a re-presentation of young larrikin women; a forgotten cohort of the larrikin sub-culture. 'Flash Donahs' was staged in 2018 at La Mama Theatre in Carlton.

*Supervisor(s):* Dr Karina Smith, Dr Jay Daniel Thompson, Dr Paola Bilbrough

### Ujjwal DATTA

*Thesis title:* Battery Energy Storage System for Renewable Energy Integrated Power System Stability Enhancement

*Citation:* Modelling droop-controlled Battery Energy Storage System for enhancing damping capability and transient stability of large-scale power networks with different level of Renewable Energy Sources penetration is carried out to explore dynamic response capability of the system undergoing multiple contingencies. The thesis produced 10 journals, 2 book chapters and 6 conference publications. IEEE PES Victoria awarded it the 2020 best thesis.

*Supervisor(s):* Professor Akhtar Kalam, Associate Professor Juan Shi

### David DAWSON

*Thesis title:* Experiential and Organisational Factors Predicting the Mental Health of Emergency Paramedics: Beyond the Trauma

*Citation:* David's state-wide survey examined the mental health of paramedics. Non-trauma factors were more significant than expected. An examiner said: "Mr Dawson has done a great job at identifying the stressors, including internal, external, and duty-related..." David was invited to present his findings to a Senate Enquiry, and industry forums. David recently retired from his Lecturership at VU.

*Supervisor(s):* Emeritus Professor Adrian Fisher, Associate Professor Michelle Ball

### William DEASY

*Thesis title:* The effects of the 5:2 intermittent fasting diet and sprint interval training on body composition and markers of cardiovascular and metabolic health in overweight individuals.

*Citation:* Two days of extreme fasting per week (5:2 diet) decreased body weight, leptin levels, BMI and fat mass compared with sprint interval

training, despite improvements to aerobic fitness. A combination of the two interventions produced greater reductions in lean muscle mass compared with intermittent fasting alone. This offers further insight into weight management strategies for good health outcomes with obesity.

*Supervisor(s):* Dr Christos Stathis, Dr Matthew Cooke

#### **Danielle DEBRUIN**

*Awarded the University Medal for Academic Excellence in Research*

*Thesis title:* A Pre-clinical Evaluation of Novel Combination Treatments to Alleviate Skeletal Muscle Loss and Dysfunction

*Citation:* Danielle's research explored how vitamin D in combination with other treatments improves skeletal muscle in health and disease, an area of increasing clinical significance. Having a muscle-related paper published in the top bone journal in the field highlights recognition and future impact. This work has been highly commended within the scientific community, leading to multiple awards across various domestic conferences

*Supervisor(s):* Professor Alan Hayes, Dr Emma Rybalka, Dr Craig Goodman

#### **Terri DENTRY**

*Thesis title:* Seeing more than we saw before: The lived experience of interprofessional practice

*Citation:* Terri explored a complex clinical context where practitioners with specialist interest in pain management came together as a team to help clients of Refugee and Asylum seeker background. This study has led to a greater understanding of the need for training, support and leadership, and the importance of developing a sense of team trust and mutual support within community health.

*Supervisor(s):* Professor Andrew Stewart, Associate Professor Margo Brewer

#### **Thi Thanh Thuy DOAN**

*Thesis title:* International Business Traveller Satisfaction - An analysis of North and South East Asian Visitors to Melbourne

*Citation:* The research focuses on business travellers from North and South East Asia to Melbourne. The findings indicate that demographics and motivation influence their travel satisfaction. Although satisfaction does not result in investment intentions, positive recommendations of Melbourne as a place for investment and leisure purposes occur. The researcher works in an Australian financial company as the Country Head of Vietnam.

*Supervisor(s):* Professor Lindsay Turner, Dr Thu-Huong Nguyen

#### **Calum DOWNEY**

*Thesis title:* Biomechanical, Physiological and Cognitive Factors

in Balance recovery in Older Adults with Knee Osteoarthritis

*Citation:* Falls are a major public health issue and the risk of falling is significantly increased in people with knee osteoarthritis. Calum's thesis has made a significant contribution to gait biomechanics by revealing how balance recovery is affected by knee osteoarthritis, and proposed a new modelling technique to predict future falls. Calum is an academic staff in Victoria University's First Year College.

*Supervisor(s):* Professor Rezaul Begg, Associate Professor Pazit Levinger

#### **Ruwangi FERNANDO**

*Thesis title:* The impact of Planned Special Events (PSEs) on urban traffic congestion.

*Citation:* Ruwangi examined the impact of Planned Special Events (PSEs) on urban traffic congestion. The research predicted short-team traffic congestion on urban roads and freeways due to PSEs. Further, the research investigated the impact of PSEs on road accidents which contributes to overall congestion resulting from PSEs. These findings enhance our understanding of PSEs and their impact on urban congestion.

*Supervisor(s):* Professor Yanchun Zhang, Dr Hua Wang, Dr Ashim Debnath

#### **Yulia FETISOVA**

*Thesis title:* Applying the Expert-Novice Paradigm in Tennis Coaching: Improving Coaches' Knowledge, Diagnostic Skills and Understanding of the Tennis Serve Technique

*Citation:* This thesis examined the knowledge and diagnostic ability of expert and novice tennis coaches of the serve. Expert coaches were able to see the serve as "a whole" while novices focused more on separate technical elements. Novice coaches need to develop their knowledge from both technical and functional perspectives which was shown to be enhanced through an online learning program.

*Supervisor(s):* Dr Andrew Dawson, Associate Professor Michael Spittle and Dr James Zois

#### **Anu GEORGE**

*Thesis title:* Is the Implementation of Responsible Tourism Initiative Achieving Green Growth Objectives? - A Case Study in Kerala, India

*Citation:* Anu evaluated the effectiveness of responsible tourism initiatives in Kerala, India, through the lens of green growth, which aims to decouple growth from its negative environmental impacts. A conceptual framework was developed to investigate how the initiatives help in addressing community well-being, socio-cultural inclusion, and natural resource management. Anu's work has been widely published in the academic literature and has informed policy development in Kerala's tourism planning.

*Supervisor(s):* Professor Terry DeLacy, Dr Min Jiang

#### **Catherine GIULIANO**

*Thesis title:* Optimising clinical and functional outcomes in older adults with chronic heart failure

*Citation:* This thesis explored factors affecting eligibility, referral and participation in exercise rehabilitation among older persons with chronic heart failure and investigated muscle-focused exercise modalities. This thesis generated 3 published papers and a further 2 under review. Catherine has made a valuable contribution to the field of clinical exercise: her work has been cited in clinical guidelines from international societies.

*Supervisor(s):* Professor Itamar Levinger, Associate Professor Christopher Neil and Professor Rebecca Lane

#### **Jozo GRGIC**

*Awarded the University Medal for Academic Excellence in Research*

*Thesis title:* The acute effects of caffeine supplementation on muscle strength, power and endurance

*Citation:* ozo's thesis found that caffeine supplementation acutely increases muscle strength, power and endurance in various exercise tasks and that the effects may not be moderated by genotype variation. During his PhD studies, he published 74 journal articles, 72% of which in Scimago Q1 journals. Jozo is a postdoctoral research fellow at the Institute for Health and Sport, Victoria University.

*Supervisor(s):* Professor Zeljko Pedisic, Professor David Bishop

#### **Mohammad Jafar HADIDIAN MOGHADDAM**

*Thesis title:* Power Quality Improvement in the Distribution Network using Optimization of the Hybrid Distributed Generation System

*Citation:* Jafar designed and placed a Hybrid Distributed Generation based on photovoltaic, wind and battery storage to improve loss reduction and power quality in an unbalanced 33-bus radial distribution network. He made improvement in voltage sag, voltage swell, Total Harmonic Distortion, and voltage unbalance by using Power Quality indexes. The research produced 6 journal, 2 conference and 2 book chapters publications.

*Supervisor(s):* Professor Akhtar Kalam, Associate Professor Juan Shi

#### **Ceceh HARIANTO**

*Thesis title:* Regulating equity crowdfunding in Indonesia

*Citation:* The research investigated regulation of equity crowdfunding in Indonesia compared with that in the US and Australia. The stakeholders' perceptions were sought, coupled with comparative law analysis to identify barriers and solutions for equity crowdfunding.

This thesis is the first research endeavour to date which evaluates the implementation of equity crowdfunding regulation from a process perspective

*Supervisor(s):* Dr Yongqiang Li, Professor Anona Armstrong, Professor Andrew Clarke

#### **James HARRISON**

*Thesis title:* A developmental framework of practice for vocational and professional roles

*Citation:* How do problem-solving and experiential learning contribute to vocational educators' understanding of 'capability' and 'competence'? Drawing on his professional journey, James explores professionals' narratives to examine how these concepts are activated in practice. Grounded in narrative enquiry, the study generates a novel developmental framework of vocational practice involving capability and competence which is of interest to those undertaking or supporting vocational and professional development.

*Thesis title:* Caring for Country Inside the Illegal Clearing: A survey of Aboriginal teacher educators' work in Australian teacher education programs

*Citation:* This is a thoroughly original thesis, highly praised by its examiners. It uses a method called "yarning" to explore the role and experiences of Aboriginal academics in the field of Education Studies. It asks whether and how the deeply colonial institution of an Australian university can serve to empower and validate its Aboriginal staff and students.

*Thesis title:* Polycystic ovary syndrome and insulin resistance: dysregulation of transforming growth factor beta signalling and the effects of exercise training

*Citation:* Luke investigated the mechanisms of insulin resistance in women with polycystic ovary syndrome. In addition he explored the metabolic health benefits that these women with could derive from exercise training. This thesis has made a significant contribution to understanding how these women develop insulin resistance and the role of novel pathways. His work demonstrates how exercise can be implemented to improve metabolic health. The findings of his work will be of interest for clinicians and for development of new therapeutics. His work received funding from the National Health and Medical Research Council - centre for research excellence in polycystic ovary syndrome.

*Thesis title:* Machine Learning Model for the Prediction of human movement biomechanics

*Citation:* The research investigated how machine learning techniques

are applicable in predicting future human movement biomechanics using patterns in data. This thesis has made a significant contribution to movement biomechanics by proposing a new technique for forecasting movement characteristics that may predict the risk of falls or assist human-machine interaction. The work has been published in high impact journals and conferences

*Thesis title:* Economic Evaluation of Disease Management in China: the Case of Hypertension

*Citation:* This study conducted an economic evaluation of the hypertension management program in China introduced in 2009. A Markov model was developed to estimate the reduction in hypertension and deaths from the program and was linked to a model estimating the increase in economic output. The program resulted in an economic benefit-cost ratio of 6.0, and 15.4 with social benefits included.
