# OUR VALUE PROPOSITION TO OUR STUDENTS AND THE COMMUNITY

Victoria University (VU) aims to be a great university of the 21st century by being inclusive rather than exclusive. We will provide exceptional value to our diverse community of students by guiding them to achieve their career aspirations through personalised, flexible, well-supported and industry relevant learning opportunities. Achievement will be demonstrated by our students' and graduates' employability and entrepreneurship.

The applied and translational research conducted by our staff and students will enhance social and economic outcomes in our heartland communities of the West of Melbourne and beyond. Our graduates as employees and citizens will shape the industries in which they work and communities where they live. Healthier, smarter and more sustainable communities will result.

# A MESSAGE FROM THE CHANCELLOR

**As Chancellor of Victoria University, I am privileged to preside at Graduations and to witness the enormous pride that our graduates take in their achievements. It is a pride that is shared by your family and friends, and by all VU staff and Council members. Your success in completing your course of study is our greatest reward.**

As your graduation day is a significant milestone, it is important to me and the entire University community that each ceremony highlights the rich and genuine diversity of our University. We work hard to ensure that our ceremonies are friendly, inviting and engaging and that we honour the celebratory nature of the occasion. It is how we do things here at VU, and those outside the VU community who attend our ceremonies never fail to comment on what an uplifting experience it is.

During your time with us, we have equipped you with the knowledge and skills you need to thrive in the modern world. You now have the tools to learn, to adapt, to be flexible, to be resilient and to succeed. You have shown an ability to set goals and achieve them. Throughout your study we have strived to give you an education which includes an understanding of the real world of work and an appreciation of the society in which we live. We are now sending you into the world to make a difference.

As a University we seek not only to provide you with a first class education but it is important to us that we strengthen the communities from which you come, and in many cases, to which you will return. Through you, and through the impact of our research on real world issues, we are improving our community, both locally and globally.

To each of our graduates – I urge you to enjoy your graduation day. Reflect on all that you have accomplished so far and on the many experiences still to come. Take a moment to think about what your time at VU has meant to you.

Please stay connected through our extensive Alumni network. You are always a member of our community and, as with all our students you will always be important to us.

Congratulations and very best wishes for an exciting and successful future.

**Ms Gaye Hamilton**

Chancellor

# A MESSAGE FROM THE VICE-CHANCELLOR AND PRESIDENT

**My heartfelt congratulations to all graduands at this important ceremony. As the Vice-Chancellor and President of Victoria University, I am honoured to celebrate your achievements with you in 2020. I would also like to extend a warm welcome to your family and friends who are sharing this special day with you.**

In graduating from VU you are now alumni of a modern university which is among the world's best. While we remain the only tertiary institution based in the west of Melbourne, we also have a growing international reputation.

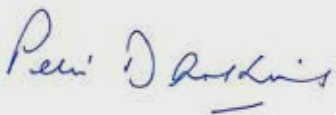

We are ranked in the top 2% of universities worldwide in the Times Higher Education World University Rankings. We are also ranked #45 in the world in the 2019 Times Higher Education Young University Rankings, a significant milestone for such a young institution.

This recognition for your university enhances the value of the qualification you have worked so hard to earn. It will assist you as you forge ahead with your career both here and abroad and enable you to say with pride that you are a graduate of Victoria University.

I join the Chancellor in encouraging you to remain connected to the University as part of our ever-growing Alumni community and I look forward to hearing more from you as you embrace your chance to join them as valued ambassadors of our institution.

Your award is an opportunity for you to make a real impact in the world locally, nationally and globally. I ask that you take the skills and knowledge you have gained here at VU and use them as the first vital step in your lifelong learning journey.

Congratulations on reaching this exciting milestone.

**Professor Peter Dawkins AO**

Vice-Chancellor and President

# 100 YEARS OF OPPORTUNITY AND SUCCESS

Congratulations! You have achieved an important milestone.

You have succeeded in your tertiary studies and we are delighted to send you into the world – or welcome you back for further study. You are now part of the VU family.

Today's Victoria University is a direct descendant of Footscray Technical School, which first opened its doors to students in February 1916. The school, with the support of the local community, took up the challenge to offer educational opportunities to the diverse population of Melbourne's West. We remain committed to that goal and we are now one of the longest-standing providers of education in Victoria.

The School adopted the image of the **Door of Opportunity** as a means of expressing to the entire community the school's purpose and reason for existence. Victoria University remains committed to that spirit and tradition as we embark on our next 100 years.

As the University of Opportunity and Success, we play a role in helping students from diverse backgrounds find success, and in the process we strive to be a distinctive University of the 21st century.

For a quarter of century we have also been providing exceptional educational opportunities for international students. In Melbourne, nearly 20% of our total student population are international students from over 80 countries. Offshore, through high-quality partnerships, VU enrolls nearly 4,500 students per year in English, diploma, degree and master courses in China, Malaysia, Singapore, Vietnam and Sri Lanka.

VU is especially proud of our international alumni as they provide marvellous contributions to their employers, families and communities all over the world.

We have grown into one of Australia's biggest and best universities, with over 42,000 enrolled students and just under 2000 staff. Victoria University is ranked in the top 2% of universities worldwide, in the prestigious Times Higher Education World Rankings.

We have campuses in Melbourne's CBD, and spread across Melbourne's western region, and a Sydney campus that offers courses to international students.

The University encompasses:

- ◆ seven teaching colleges
- ◆ Victoria Polytechnic, VU's vocational training provider, and
- ◆ Two research institutes in our flagship areas of Sport, Health and Active Living and Sustainable Industries and Liveable Cities.

# ACKNOWLEDGEMENT OF COUNTRY

Victoria University acknowledge the Ancestors, Elders and families of the Boonwurrung and Woiwurrung of the Kulin who are the traditional owners of University land. As we share our own knowledge practices within the University may we pay respect to the deep knowledge embedded within the Aboriginal community and their ownership of Country. We acknowledge that the land on which we meet is a place of age old ceremonies of celebration, initiation and renewal and that the Kulin people's living culture has a unique role in the life of this region.

# THE UNIVERSITY MACE – AN ESTABLISHED TRADITION

Our graduation ceremonies begin with the entrance of the University mace, signifying the authority of the Chancellor. Carried by the Mace Bearer, the mace symbolises learning, scholarship and our rich history. The mace connects us with those who have come before and those who will follow in the pursuit of learning. Made of sterling silver and 24-carat gold, the design includes the letter 'V', standing for Victoria – our University's home and namesake.

# ACADEMIC DRESS

Wearing academic dress on ceremonial occasions is a celebrated university tradition, and generally consists of a gown (also known as a robe) with a separate hood (also known as a stole), and usually a cap – doctoral candidates wear a bonnet. Throughout the Commonwealth, universities usually follow the academic dress style of Oxford or Cambridge. Our academic dress is based on the Oxford style. Traditionally, the Chancellor’s gown is faced in gold and the Vice-Chancellor’s gown is faced in silver.

The colour of the hood (stole) identifies the discipline:

<b>Ruby</b>	Arts
<b>Ultramarine</b>	Business or Business Administration
<b>Cherry</b>	Education
<b>Silver Grey</b>	Engineering
<b>Old Rose</b>	Health Science
<b>Parchment</b>	Law
<b>Pansy</b>	Music
<b>Buff</b>	Psychology
<b>Spectrum Green</b>	Science, Applied Science and Sport Science
<b>Gold</b>	Social Studies
<b>Gold</b>	Sport and Recreation
<b>Adonis Blue</b>	Doctor of Business
<b>Cherry</b>	Doctor of Education
<b>Graphite</b>	Doctor of Engineering
<b>Pearl White</b>	Doctor of Laws
<b>Ruby</b>	Doctor of Letters
<b>Sapphire</b>	Doctor of Philosophy
<b>Old Gold</b>	Doctor of Psychology
<b>Spectrum Green</b>	Doctor of Science
<b>Sky Blue</b>	Doctor of the University
<b>Tangerine</b>	TAFE Certificates

The gowns worn by graduating students help distinguish undergraduate and higher degrees:

- ◆ undergraduates and postgraduates wear a black gown – Vocational Education, Further Education and undergraduate gowns have a large slit in each sleeve
- ◆ the masters gown has a long narrow sleeve extension
- ◆ doctoral candidates wear a red gown.

**Masters** – a black gown and black cap with a black hood fully lined with the discipline colour.

**Doctors** – a black bonnet with a gold cord, a scarlet gown with a facing and a black hood fully lined with the discipline colour.

**Indigenous Australians** – the gown of their award together with a calf-length black and red silk stole with gold tassels, a map of Victoria in gold silk, ‘Victoria University’ embroidered in gold on the left end of the stole, the sun embroidered in gold silk and ‘Ngaga Jindi Woraback’ embroidered in gold on the right end of the stole.

In official abbreviations of our awards, Victoria University is abbreviated to VicMelb.

## ACADEMIC DRESS FOR PARTICULAR AWARDS IS AS FOLLOWS:

**Certificates** – a black cap and an undergraduate gown with a black stole with a facing of tangerine.

**Diplomates and Graduate Certificates** – a black cap and an undergraduate gown with a black stole with a facing in the discipline colour.

**Bachelors** – a black gown and black cap with a black hood half lined with the discipline colour. The hood for the honours degree has a white band on the edge of the hood.

## DOCTOR OF BUSINESS ADMINISTRATION

**Fuaad Abdullah D ALSHEHRI**

*Thesis title:* Is Saudi Arabia's Business Environment Conducive to Attracting Foreign Direct Investment in Non-Oil Sectors? Challenges and Implications

*Citation:* Fuaad's research investigated the challenges faced by the Kingdom of Saudi Arabia's declining oil revenue and its efforts to attract Foreign Direct Investment into non-oil sectors. His findings have made significant contribution in providing the Saudi Arabia General Investment Authority with a deep understanding of the challenges faced by the foreign investors and has made a profound impact on reframing the Foreign Direct Investment policies.

*Supervisor(s):* Associate Professor Shahnaz Naughton

**Arun Vethanayagam ANTON**

*Thesis title:* Choice of discount rate and agency cost minimisation in capital budgeting: Analytical review and modelling approaches

*Citation:* Firms choosing between projects with different risk levels can use a single discount rate or develop project-specific discount rates. One leads to the choice of high-risk projects while the other generates inconsistency across the firm. This study develops a new method for calculating project-specific consistent discount rates. This method generates increased firm value and constitutes a significant contribution to accounting practice.

*Supervisor(s):* Professor Peter Sheehan, Professor Bruce Rasmussen, Dr John Symons

**Robert Louis MACKENZIE**

*Thesis title:* Microfinance, NGO capability building and poverty: A study of poor women in India

*Citation:* This study identified the success factors and impacts of microfinance on poor women in India. The poor women predominate in microfinance because they have high repayment rates, invest in the family, and use credit to escape social restrictions. Policies that can assist poor women to rise above subsistence level include providing access to decent health care, education and training, investment in public transport and road infrastructure and licences to run a business.

*Supervisor(s):* Dr Segu Zuhair, Dr George Messinis

*Thesis title:* A Critical Review of Acquisitions within the Australian Vocational Education and Training Sector 2012 to 2017

*Citation:* Kristina examined acquisitions in the vocational education sector in Australia prompted by deregulation and a multi-billion dollar training investment by State and Federal governments. Highlighting the primacy of strategic planning, the study revealed a demonstrable gap in terms of local knowledge and limited awareness of pitfalls associated with a sector that is subject to strict regulatory oversight.

*Thesis title:* Investigating Key Factors Influencing International Students' Choice of Private Higher Education Institutions (HEIs) in Malaysia

*Citation:* Woon Sim Teah's thesis investigated factors influencing international students' decision-making in choosing private Higher Education Institutions (HEIs) in Malaysia. Her study uses structural equation modelling to integrate a consumer decision-making model with push-pull theory to analyse an inclusive decision-making process that encompasses the international students' home country attributes, Malaysia as the study destination, HEI traits, perceptions of an overseas qualification, experiences of studying abroad, and overall satisfaction with the selected HEI. Woon Sim Teah's holistic study made a significant contribution to research by identifying distinguishing key factors that attract international students to study in Malaysia.

*Thesis title:* The Capital Market Effect of the IFRS Mandate on IPO Underpricing and Long-term Performance- Evidence from Saudi Arabia

*Citation:* Manal examines the benefits of the joint effect of IFRS mandate and changes in transparency on IPO underpricing and long-term performance of IPO firms in Saudi Arabia. Findings show that while IFRS significantly reduces underpricing, it provides no benefits in the long-term. Although the concurrent-effect of IFRS mandate and transparency on underpricing is found, this concurrent-effect vanishes in the long-term.

**Trevor Michael FARR**

*Thesis title:* The effects of muscle mass, digoxin and high-intensity interval training on arterial and venous [K+], excitability and fatigue during and after intense exercise

*Citation:* Trevor investigated whether elevated plasma potassium with exercise was linked with muscle fatigue and weakness post-exercise. Potassium during exercise was higher with two-legs than one-leg, with digoxin versus placebo, and was less after intense training. However, consequent effects on muscle fatigue, force and excitability were inconsistent across these interventions. This thesis advanced understanding of potassium regulation, exercise, fatigue and recovery.

*Citation:* Samah Sabawi makes a vital contribution to understanding the role of intergenerational trauma in the formation of Palestinian-Australian identity. This is achieved through a critical and creative exploration of the life of the writer's own father, a noted Palestinian poet, thereby celebrating the cultural spaces of Palestine and its diasporas while examining the impact of exile on hybrid identities.

### **Kahra SCOTT JAMES**

*Thesis title:* Post Film, Let's Play: Sound, Design & the Digital Pipeline

*Citation:* Historically, sound has been described as an add-on, an afterthought, secondary to the picture. Film is audio-visual, yet film education is visually-centric, an imbalance that stifles meaningful collaboration. This thesis has made a significant contribution to the field of sound design, incorporating the manuscript for a book, Sound Design for Moving Image, addressing the neglect of sound in education.

### **Cameron SMEE**

*Thesis title:* "If we were all, like, learning at the same time, we might have, like, the same experience": An investigation into the development of physical subjectivities in early primary education

*Citation:* Cameron examined the embodiment and development of children's physical subjectivities in primary education. His research showed how the unequal valuing of the different levels of embodied experience that children brought to class meant that they were constantly engaging in stratified interactions. This research provides a unique insight into the role these interactions may play in impacting children's relationships with physical culture.

### **Georgina Amy VERNON**

*Thesis title:* Decision making in tennis: Exploring the use of kinematic and contextual information during anticipatory performance

*Citation:* This thesis helped to develop a model for how expert tennis players integrate different cues to anticipate an opponents action. To do so, Gina completed a unique combination of studies that involved interviewing expert tennis players, analysing Hawkeye data from the Australian Open and through simulated matchplay. Gina was an industry-based scholar embedded within Tennis Australia and consequently has been able to positively translate her findings to the tennis community.

### **Pasupathy VIMALACHANDRAN**

*Thesis title:* Privacy and Security of Storing Patients' Data in the Cloud

*Citation:* Privacy and security concerns highly impact the uptake of the Australian My Health Record (MyHR) system negatively. This research investigated concerns associated with access control, data integrity, privacy, and security while using the MyHR. The proposed three-layered security model contributes to access control and cryptography techniques significantly and enables an improved accessibility to re-identified patients' data for research.

*Supervisor(s):* Professor Hua Wang, Professor Yanchun Zhang, Dr Guangyan Huang

### **Judith Anne WATSON**

*Thesis title:* Knowledge Erosion and Degradation: A Single Case-Study of Knowledge Risks and Barriers in a multi-business organisation

*Citation:* Knowledge in various forms is a most important global commodity, but preservation of knowledge is a neglected area within the evolving field of knowledge management. Neglect of knowledge preservation practices within organisations has often resulted in failed projects and this is conceptualised as knowledge erosion and degradation. This research involved investigation of how knowledge management is handled in a complex multi-function organisation.

*Supervisor(s):* Associate Professor Arthur Tatnall, Dr Beverley Lloyd-Walker

## **MASTER OF APPLIED SCIENCE**

### **Anushka BHARGAVA**

*Thesis title:* The effect of maturity status on physical performance following traditional dynamic and eccentric resistance training in adolescent male soccer players
