# COURSE DELIVERY PLAN 2023

**Prerequisites** A number of units within the degree have 'prerequisites'. These prerequisites must be met before enrolment in the unit is permitted. Generally these prerequisites require the successful completion of a unit or units taken at an earlier stage in the course. Students should pay particular attention to these prerequisite requirements as failure to meet these can seriously hinder progression through the course.

**Date of Publication:** This information is current at the publication date: 19/09/2022. It is provided as information only and does not form part of a contract between any person and Victoria University.

## Professional Accounting BSPMAQ -

The Graduate Diploma in Business (Professional Accounting) is a stepping stone to the world of professional accounting. It is designed for those who already have a base of significant relevant professional experience or have a Bachelor's degree. The course is academically rigorous, developing a strong foundation in conceptual knowledge of accounting procedures and practices. This foundation is complemented by current skills development, focusing on critical thinking, problem solving and creativity.

## Enterprise Resource Planning BSPMEN

Victoria University is one of the world's leading institutions in ERP (SAP) education as recognised by industry, SAP and academia. The Graduate Diploma in Business (Enterprise Resource Planning) offers a pathway to postgraduate ERP studies and is designed for those who already have a base of significant relevant professional experience but do not yet have a postgraduate degree.

This course will teach you to support the implementation and maintenance of enterprise resource planning through the application of analytical techniques and SAP technology to solve information problems. You will also learn to understand the implications of these types of systems in a business setting and how these systems achieve effective complex decision making in response to contemporary business challenges.
