

FACULTY BOARD OF STUDIES

STATEMENT OF POLICY

Dear fellow Students,

My name is Sarah Cassar, and I am currently an Undergraduate Student completing my final Semester in Bachelor of Food Science, Health and Nutrition. I am committed and determined to take on the major position as Student Board of Faculty during the time I will be completing my Honours in Food Science.

To be assigned this opportunity as a Student Representative of the Faculty, I will actively and closely monitor major policies existing and in development, ensuring they are in line with Student preferences.

Taking on this position, I am willing to address all responsibilities that may arise in order to build a strong network between the Board and Students. Students and the Board will have constant opportunity to exchange and receive feedback in specific areas of the Faculty, in order to allow the Board and Students to connect on a regular, accessible basis.

I would greatly appreciate your vote and will be extremely honoured to represent my fellow Students at every given opportunity to my utmost ability, acknowledging Students' academic achievements as well as to ensure the facilities at the Faculty provides Students in developing their knowledge towards their career path.

Kind Regards,

Sarah Cassar
